Sommelier guided wine sessions

Home sommelier
Discover, taste and learn about wines in the
intimacy of your very own home

Vinumibiza was born in 2014.

Goran Krstanovic, is the name behind the company Vinum Ibiza.

After 22 years of experience in the gastronomy he decided to take his passion to the next level and starting a new direction. His sommelier title from 2006 opened new doors to the best restaurants in the world. The last years he dedicated himself to the high gastronomy in Ibiza, putting all my wine knowledge into practise and making new contacts in the wine industry and gastronomy in Ibiza and on the mainland.

Due to his passion for wine he decided to follow this wonderful challenge...

...offering great quality wines of small national and international wine makers, focusing on wines with character, diversity and biodinamism, great champagnes and sparkling wines - unknown on the ibicencian market.

It is all about wineries, which are not yet represented on the island but very successful in other countries.

At the same time we merchandise the great and excellent names of the international winemakers to very competitive prices. We invite you to discover a new world of excellent wines.

Discover a new world of excellent wines.

Vinum Ibiza.

Goran Krstanovic

We invite you to discover a new world of excellent wines. Following our slogan:

Always a good nose for wines and business.

We offer a professional tasting, and we will talk about wine.

We will guide you in the tasting of international wines among the symbolic wine labels.

We will give you unique and rare emotions, and we will try wines directly to your home with years of history.

the panorama of not only French wines, but also wines from around the world

SOMMELIER GUIDED WINE TASTINGS

Home Sommelier tastings allow you to embrace this passion. we invite our guests to learn about the wines and how they can be appreciated. This sharing is done through the tasting of wines such as prestigious appellations, Grands Crus and Crus, recent discoveries, and private collections.

The variety of wines on offer lets you discover at your own pace the panorama of not only French wines, but also wines from around the world.

WHAT WE DO

Home Sommelier aims to help wine lovers rediscover the natural bond between the wine and the land. Looking beyond the wine itself, we contextualize it concerning the entirety of the wine's history: the cultivation, the terroir, the culture, and the people behind it. We showcase the work of the most celebrated winemakers who produce the most excellent wines in the world through our special wine evenings. These wines capture the essence of the earth – they are true photographs of the soil.
